

# Metaverse

how can we improve it?

# Core ideas

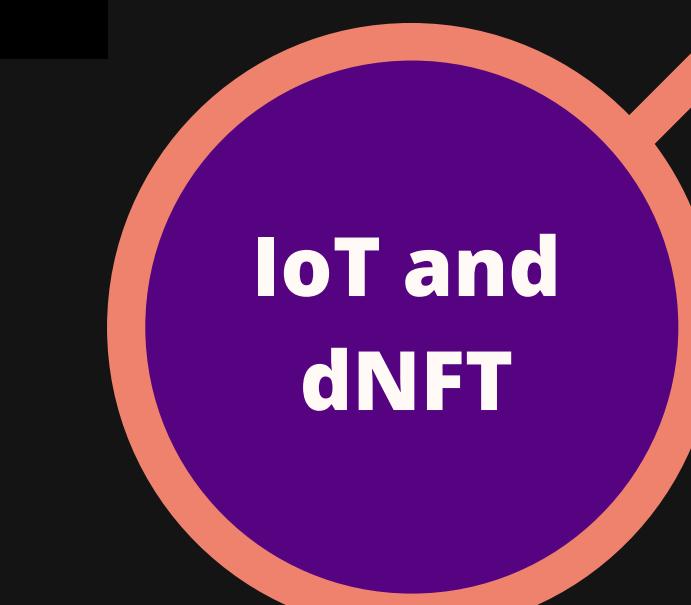

penalty system based on  
the weight of fault  
respect for the other members

Owning your  
data

blockchain based  
trustless manner  
owning your  
DATA

IoT and dNFT based reward  
system  
use the system where  
equality is goal

# What we have at the moment:

**BIG UPSIDE  
POTENTIAL**

**HODL**

**100X**

**FUN & GAME**

**HYPE**

**THE  
SANDBOX.**

**REKT**

**FUD**

**WEN LAMBO**

**techy techy**

**not the  
best UX**

**not that fun**

**too nerdy**

**Has to be sexy!**

**What we might  
need:**

**Easy to use**

**Implement in our  
daily basis**

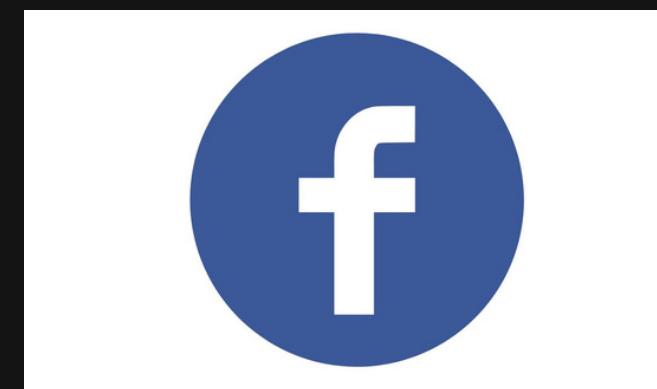

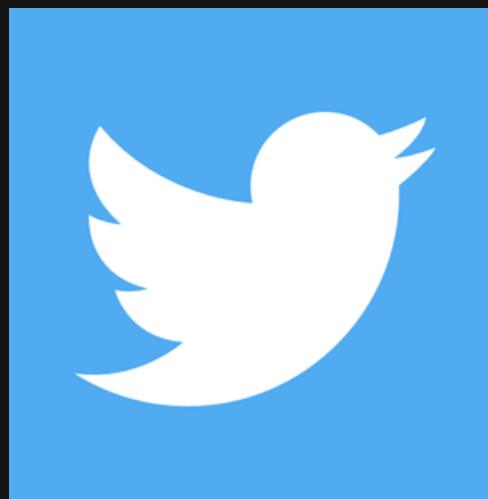

**Motivation**

Educate Web2  
users on Web3

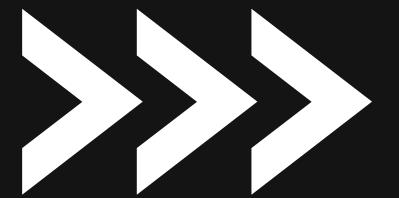

Opportunities  
Financial freedom  
Owning your data

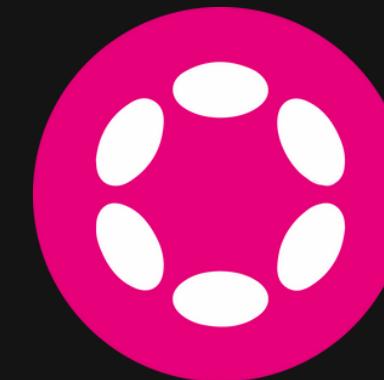

HO-HO-HO :)

DID  
→

A white curved arrow pointing from the word "DID" down and to the right towards the KILT logo.

BUT!  
→

Two white chevron-style arrows pointing to the right, indicating a continuation or a contrasting point.
